3. High Risk Investment

- 3.1. Trading Forex/CFD & Options on margin carries a high level of risk and may not be suitable for all investors. The high degree of leverage can work against you as well as for you. Before deciding to trade any such leveraged products you should carefully consider your investment objectives, level of experience, and risk appetite.
- 3.2. The possibility exists that you could sustain a loss of some or all your initial investment and therefore you should not invest money that you cannot afford to lose.
- 3.3. You should be aware of all the risks associated with trading on margin and seek advice from an independent financial advisor if you have any doubts.
- 3.4. All accounts are margin leveraged accounts. Clients must maintain an adequate amount of margin to sustain their positions, if equity levels drop to 10% of used margin, a margin call will occur. It is the investor’s responsibility to maintain a sufficient level of margin.
